SHARIAH PRINCIPLE

19. **Commodity *Murabahah* via *tawarruq* arrangement.** A CM Account is based on the *Shariah* principle of *Murabahah* via *Tawarruq*. *Murabahah* refers to a sale and purchase of an asset with disclosure on the cost of the asset and the profit rate. A *tawarruq* consists of two sale and purchase

contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to third party on a cash and spot basis. The mechanics involve:

- (a) you make an offer to us by submitting a completed application form with the required documents. We may (at our discretion) accept by opening a CM Account for you when you transfer or deposit at least the applicable minimum deposit amount.
- (b) you will appoint an agent under the principles of *Wakalah bil Ujrah* (agency with fee), as described in Clause 20 below, to purchase goods or assets that are approved by the *Shariah* Board of the Bank except for gold, silver, currencies, assets to be constructed or under construction and assets which are debt in nature (**Commodity**) on your behalf from the Commodity trader or supplier on the following days (each a **Commodity Trading Day**):
 - (i) on account opening day, where an initial deposit is made;
 - (ii) on any particular day subsequent to account opening, where there is a Net Daily Increment (each of (i) and (ii), a **Daily Commodity Murabahah**); and
 - (iii) on 31 December of every year, whether or not there is any Net Daily Increment (**Annual Commodity Murabahah**),
at a specified cut-off time determined by the Bank and at the following purchase price (each a **Purchase Price**),
 - (iv) in relation to account opening day, an amount equivalent to the EOD Balance on that day;
 - (v) in relation to a day when Net Daily Increment occurs, an amount equivalent to the Net Daily Increment; and
 - (vi) on 31 December of every year, an amount equivalent to the EOD Balance on that day,

and if the Commodity *Murabahah* transaction is not executed on the Commodity Trading Day, then the Commodity *Murabahah* transaction will be executed on the following day.

“EOD Balance” means the end-of-day (EOD) credit balance in a CM Account excluding floats on any single day, at a specified cut-off time determined by the Bank. Any deposited amount after the cut-off time as identified by the Bank will be captured in the next day EOD Balance.

“Net Daily Increment” means the positive difference between today’s EOD Balance and the previous day’s EOD Balance.

- (c) you agree that the Commodity will be purchased by the agent on an “as is where is” basis, without any representations or warranties from the agent as to quality, condition and description, and without liability on the part of the agent for any loss, damage or deterioration, except in the event of misconduct, negligence or breach of specified terms on the part of the agent.
- (d) all risk shall pass to the purchaser and the seller shall be freed from any liabilities, responsibilities or obligations relating to the Commodity in any form or manner whatsoever. Any defects or non-delivery or any disputes whatsoever in relation to the Commodity shall not in any way affect or absolve the contracting parties’ obligations or undertakings hereunder.
- (e) **request for physical delivery of Commodity.** If you intend to take physical delivery of the Commodity purchased, you shall ensure that:
 - (i) you have the necessary licences, permits, approvals and consents to take delivery of the Commodity in accordance with the applicable laws and regulations;
 - (ii) your request to take delivery of the Commodity must be communicated to the agent prior to the opening of the CM Account; and
 - (iii) all costs associated with the physical delivery of the Commodity shall be borne solely by you.
- (f) if no physical delivery is requested, then immediately after the conclusion of the purchase of the Commodity from the trader or supplier (which includes completion of transfer of ownership and constructive possession of the Commodity represented by certificate(s)),

the agent will sell the Commodity to the Bank at the **Murabahah Sale Price** calculated as follow:

- (i) Purchase Price; and
- (ii) Profit (calculated based on Profit Rate and Tenure per the formula shown in **Appendix 1** to these Specific Terms and Conditions),

payable by the Bank on a deferred payment basis as follow:

- (iii) in relation to the Profit portion of the *Murabahah* Sale Price, accrued Profit will be credited on a monthly basis on the last day of each calendar month or on such intervals as disclosed to the Customer (**Profit Payment Date**);
- (iv) in relation to the Purchase Price portion of the *Murabahah* Sale Price of a Daily Commodity *Murabahah*, on the end of day of 31 December in the current year which the Commodity *Murabahah* transaction is executed;
- (v) in relation to the Purchase Price portion of the *Murabahah* Sale Price of an Annual Commodity *Murabahah*, on the end of day of 31 December next year (each of (iv) and (v), a **Purchase Price Payment Date**);

as illustrated in **Appendix 1** to these Specific Terms and Conditions. *Murabahah* Sale Price will be paid net of agency fee.

“Tenure” in relation to a Daily Commodity *Murabahah*, means, a duration in days from Commodity Trading Day (inclusive) to 31 December (inclusive) of the year in which the Commodity *Murabahah* transaction is executed and in relation to an Annual Commodity *Murabahah* means, duration in days from Commodity Trading Day (inclusive) to 31 December (inclusive) next year.

- (g) subject to Clause 22, the Bank may (in its absolute discretion) choose to pay the *Murabahah* Sale Price earlier than the respective Profit Payment Date and Purchase Price Payment Date when the Bank exercises its right to terminate the CM Account in accordance with the General Terms and Conditions.
- (h) subject to Clause 22, the Customer may make withdrawal from the CM Account at any time. Any net amount withdrawn from the CM Account is deemed to be a demand by the Customer for early payment of the Purchase Price portion of the outstanding *Murabahah* Sale Price and the outstanding *Murabahah* Sale Price will be reduced accordingly.
- (i) on each Purchase Price Payment Date, the Customer is deemed to have received payment of the relevant outstanding Purchase Price from the Bank in fulfilment of the Bank’s payment obligation in relation to *Murabahah* Sale Price, and immediately upon receipt of such outstanding Purchase Price, to have deposited the outstanding Purchase Price into the CM Account. For the avoidance of doubt, the amount deemed to have been deposited into the CM Account on each Purchase Price Payment Date shall form part of the total amount of deposits for the purposes of calculating the EOD Balance on that day.
- (j) each sale and purchase in a Commodity *Murabahah* trade is binding automatically and shall not be terminated unilaterally by any of the contracting parties.
- (k) in the event of an upward change of the Profit Rate, instead of dissolving an existing Commodity *Murabahah* transaction and enter into a new transaction, the Bank may grant and pay as a *hibah* (gift) an amount representing the positive difference between the contracted Profit and the Profit calculated based on the revised Profit Rate.

20. **Wakalah bil Ujrah (Agency with Fee).** *Wakalah bil Ujrah* refers to the appointment of an agent by you, with imposition of a fee, to perform a particular task on matters that may be delegated.

You agree and will complete an agency appointment form to appoint the Agent under a dual agency arrangement. The obligations of the Agent in respect of the Commodity *Murabahah* transactions are set out in the agency appointment form.

In executing the agency appointment form, you acknowledge and agree:

- (a) that **Al Rajhi Nominee (Tempatan) Sdn Bhd (Registration Number: 201001026991 (910910-A))** (the **Agent**) will be your Agent to undertake an independent role and function and to execute specific tasks to facilitate the entry into and in respect of the Commodity *Murabahah* transactions and not in any other respect based on the contract of *Wakalah bil Ujrah* (agency with fee). The Agent has established a dedicated unit known as “Commodity

Trading Unit” to, on your behalf, facilitate the completion of the Commodity *Murabahah* transactions, including without limitation:

- to purchase the Commodity on your behalf from the Commodity trader or supplier on cash basis.
 - if you do not request to take physical delivery of the Commodity, to sell the Commodity to the Bank at the *Murabahah* Sale Price.
 - to execute all acts for the completion of the Commodity *Murabahah* transaction(s) in accordance with these Specific Terms and Conditions.
- (b) it is understood that this appointment shall be irrevocable for the entire tenure of the CM Account except if otherwise is mutually agreed by the contracting parties.
- (c) the Agent will not assume, or be deemed to have assumed, any additional obligations to, or to have any special relationship with you other than those for which specific provision is made in the agency appointment form.
- (d) that you will still be principally liable under the Commodity *Murabahah* contracts entered into by the Agent as your agent except where the Agent acted in wilful default.
- (e) to pay an agency fee (*Ujrah*), at a rate determined by the Bank from time to time. The agency fee:
- (i) is calculated based on the illustration in **Appendix 1** to these Specific Terms and Conditions.
 - (ii) will be deducted from the *Murabahah* Sale Price of each Commodity *Murabahah* transaction and will be credited into the Agent’s account maintained with the Bank.
 - (iii) will be used for the payment of the agency expenses.
- (f) the Agent is not obliged to enter into any transaction nor act on your instructions if the Agent considers that it would result the Agent be in contravention or violation of any law, policy, rule or regulation.
- (g) that the Agent may undertake the role as an agent for more than one customer and will execute the role for each customer independently. For clarification, the Agent may purchase and sell the Commodity on an aggregate basis.
- (h) you will indemnify the Agent against all actions, claims, demands, liabilities, losses, damages, costs and expenses of whatever nature which the Agent may sustain or incur as a result of acting as your agent except in the event of misconduct, negligence or breach of specified terms on the part of the Agent. This indemnity shall continue in spite of termination of the agency.
- (i) the Bank shall monitor and ensure the Agent performs its obligations efficiently and professionally.
- (j) that the appointment of the Agent shall cease upon closure of all your CM Account(s).
21. **Bai’ al-Sarf** (for CM FCA only): In addition to *Tawarruq* and *Wakalah bil Ujrah*, the Bank also adopts *Bai’ al-Sarf*. *Bai’ al-Sarf* refers to a contract of exchange of money for money of the same or different type.

You will sell a currency to the Bank for another currency on spot basis and at the Bank’s prevailing exchange rate. The proceeds will thereafter be utilized for the purchasing and selling of Commodity based on *Tawarruq*.

REBATE (IBRA’)

22. The Customer agrees to grant a rebate (*ibra’*) to the Bank on the Profit portion of the *Murabahah* Sale Price as determined by the Bank (which determination, shall save for manifest error, be final, conclusive and binding on you):
- (a) in the event of premature withdrawal in accordance with Clause 19(h);
 - (b) in the event of termination of a CM Account in accordance with Clause 19(g); and
 - (c) in the event of a downward change in the Profit Rate.

DIGITAL CHANNEL

23. We may offer our accounts, products and services through a new mobile application under a separate and distinct brand name pursuant to our digital banking initiative. Such account, product and service may contain features and benefits which are different from our existing offering under the current Al Rajhi Bank brand name.
24. **Saving Pot.**
- (a) Your CM Account may come with a “Saving Pot” which is a feature for you to manage your saving and spending by segregating your money in the CM Account and keep your money aside from the available account balance. A “Saving Pot” can only be used to manage your savings and you are not able to spend, transact or make any payment from the money in the “Saving Pot”. Money in the “Saving Pot” does not form part of your available account balance. This means that even if you have money in the Saving Pot, but your available account balance is not sufficient to complete a withdrawal, fund transfer, spending or payment transaction, your transaction will not go through. Money in your “Saving Pot” will not be automatically released to your available account balance. If you need to access money in your “Saving Pot” at any time, you may log into the mobile application to release money from your “Saving Pot” to the available account balance. There is no restriction on the number of withdrawals that you can make from the “Saving Pot”. Your usage of this “Saving Pot” feature is subject to the maximum number of “Saving Pot” and the maximum amount of fund that a customer may keep in the “Saving Pot” as specified by the Bank.
 - (b) Different profit rate may apply to your money in the “Saving Pot” and to your available account balance. You may define a saving goal or assign a purpose to your “Saving Pot”. Your saving goal or purpose must not contain any content which is illegal, unlawful, inappropriate, culturally insensitive, obscene, non-Shariah compliant, offensive, provocative, objectional, libellous, defamatory, or infringes any intellectual property rights. You may select the automatic contribution option whereby a pre-determined amount will be deducted from your available account balance to the “Saving Pot” periodically at such frequency selected by you.
 - (c) Once a “Saving Pot” is created, you may invite people that you know to contribute to your saving goal. On the “Saving Pot” module in the mobile application, you will be able to generate and share an invitation which contains information about your saving goal and its current status, DuitNow QR and/or account number. You must ensure that you only share the invitation with people that you know and who would like to contribute to your saving goal. You must not use this feature to solicit fund transfer for any illegal, unlawful or non-Shariah compliant purpose. You must inform the recipient of your invitation that if the recipient is agreeable to support your saving goal, the recipient may carry out a DuitNow fund transfer to your CM Account and that any amount transferred will be non-reversible. You must resolve all complaints, claims or disputes that your recipient may have with you and not to involve the Bank in any such claim, dispute or legal proceedings.
 - (d) For avoidance of doubt, a “Saving Pot” is not a separate and distinct account that you maintained with us and the movement of money between your account available balance and the “Saving Pot” is not a transaction that involves fund movement in or out of your CM Account. Your usage of a “Saving Pot” will not affect the Bank’s exercise of its right or discretion in relation to your CM Account in accordance with the General Terms and Conditions and these Specific Terms and Conditions.

Appendix 2

Calculation of *Murabahah* Sale Price and Agency Fee

Formula:

Purchase Price = Deposit amount

***Murabahah* Sale Price** = Purchase Price + Profit

Profit = Deposit amount x Profit Rate* x (No. of Days in Placement Period / No. of Days in Year)

Agency Fee = Purchase Price x Agency Fee Rate** x (No. of Days in Placement Period / No. of Days in Year)

**Inclusive of Agency Fee Rate.*

***Please refer to our rate board for the current Agency Fee Rate*

Illustration:

Deposit = RM10,000.00

Profit Rate = 3.01%

Number of Days in Placement Period = 120 days

Number of Days in Year = 365 days

Agency Fee Rate: 0.01%

Profit = $RM10,000 \times 3.01\% \times (120/365) = RM98.96$

***Murabahah* Sale Price** = $RM10,000 + RM98.96 = RM10,098.96$

Agency Fee = $RM10,000 \times 0.01\% \times (120/365) = RM0.33$

Amount payable to the Customer shall be RM10,098.63 which is net of the Agency Fee (RM10,098.96 – RM0.33) and Agency Fee amount payable to Agent shall be RM0.33

CUSTOMER'S DECLARATIONS AND CONFIRMATIONS

4. You are aware that unlike a traditional fixed deposit, the return of a FRTD Account may fluctuate throughout the Placement Tenure. A FRTD Account may not be suitable for you if you are not able to accept this risk. It is not possible to detail all risks which may arise. We advise that you obtain independent advice to assist you to understand the risks involved with the FRTD Account.
5. By opening a FRTD Account, you confirm that you have sufficient knowledge and experience or have received professional advice to make your own evaluation of the merits and risks of the FRTD Account. You confirm that you (or through your professional advisers) fully understand the risks involved and are willing to accept all such risks. 13. The Bank reserves the right to make necessary correction to the Effective Profit Rate if the Benchmark is corrected by its administrator following its publication.

15. The Bank's determination of the Effective Profit Rate shall, save for manifest error, be final, conclusive and binding on you.
16. The applicable Effective Profit Rate will reset at the end of each Repricing Period and the updated Effective Profit Rate will be applicable to the following Repricing Period and Profit Period. Profit reset does not operate retrospectively.

Subject to Clause 22, you may select a Repricing Period and a Profit Period in the Placement Form at the inception of the FRTD Account placement and that Repricing Period and Profit Period will be fixed throughout the tenure of the Placement Tenure unless otherwise agreed during the placement at the inception.
22. We may require that you select a Repricing Period and a Profit Period of such tenure, such that the Placement Tenure, when divided over the selected Repricing Period and Profit Period will result in a whole number of Repricing Period and Profit Period to maturity (i.e. without fraction). A Repricing Period and Profit Period shall not extend beyond the maturity.
23. You may refer to **Appendix 5** to these Specific Terms and Conditions for illustrations on profit calculation.

If no maturity instruction is provided, the Bank will pay the *Murabahah* Sale Price to the account of the Customer maintained with the Bank.
25. Where you have been provided with a special profit rate, for particular period of time, such special profit rate will not be applicable to any renewal of the placement unless specifically authorised by the Bank at the point of renewal.

Appendix 5

Calculation of the Profit Amount, Murabahah Sale Price and Agency Fee

Purchase Price = Deposit Amount

Effective Profit Rate = Benchmark + Spread

Ceiling Profit = Deposit amount x [CPR + Agency Fee Rate**] x (No. of Days in Placement Tenure / No. of Days in Year*)

CPR = Ceiling Profit Rate (capped at 6% per annum)

Agency Fee = Deposit amount x Agency Fee Rate** x (No. of Days in Placement Tenure / No. of Days in Year*). The objective from Agency Fee as a variable in the profit calculation is aimed to provided for set off against Agency Fee collected by the Bank.

Profit Amount = means profit amount calculated based on the Effective Profit Rate in accordance with the Profit Period less (if applicable) amount deducted due to clawback or forfeiture in accordance with Terms and Conditions outlined herein.

Murabahah Sale Price = Purchase Price + Ceiling Profit

**A Year is a period of 365 days (or 366 days in leap years) or 360, depending on the convention applicable to the relevant currency of the deposit.*

***Please refer to our board rate for the current Agency Fee Rate*

CPR and Agency Fee are calculated only once at the point of execution of Commodity Murabahah.

ILLUSTRATION:

Deposit Amount = RM100,000.00

Ceiling Profit Rate, CPR = 6% p.a.

Number of Days in Placement Tenure = 365 days

Number of Days in Year = 365 days

Profit Cycle = 3-month

Agency Fee Rate: 0.01%

Execution of the Commodity Murabahah once at the inception:

Ceiling Profit = $RM100,000 \times [6.00\%p.a + 0.01\%] \times (365/365) = RM6,010$.

Murabahah Sale Price = $RM100,000 + RM6,010 = RM106,010$.

Calculation of the Profit Amount	<p>Profit Period (1) Effective Profit Rate = 4% p.a. Days in the Profit Period = 90 days Profit Amount = Deposit Amount x Effective Profit Rate x (No. of Days in Profit Period / No. of Days in Year) Profit Amount = $100,000 \times (4\%p.a.) \times (90/365) = 986.30$</p> <p>Profit Period (2) Effective Profit Rate = 4.1%p.a. <i>Notes: the assumption here is that the benchmark has changed upward by 0.1%p.a., and hence the Effective Profit Rate has also changed from 4.0%p.a to 4.1%p.a. Although the change might have happened at any of the days in Profit Period (1), it will be effective only with the inception of the new Profit Period (2).</i> Days in the Profit Period = 91 days Profit Amount = Deposit amount x Effective Profit Rate x (No. of Days in Profit Period / No. of Days in Year) Profit Amount = $100,000 \times (4.1\%p.a.) \times (91/365) = 1,022.19$</p> <p>Profit Period (3) Effective Profit Rate = 4.1% p.a. Days in the Profit Period = 92 days</p>
---	---

	<p>Profit Amount = Deposit Amount x Effective Profit Rate x (No. of Days in Profit Period / No. of Days in Year) Profit Amount = 100,000 x (4.1%p.a.) x (92/365) = 1,033.42</p> <p>Profit Period (4) Effective Profit Rate = 4.1%p.a. Days in the Profit Period = 92 days Profit Amount = Deposit Amount x Effective Profit Rate x (No. of Days in Profit Period / No. of Days in Year) Profit Amount = 100,000 x (4.1%p.a.) x (92/365) = 1,033.42</p> <p>The difference between Profit Amount and Ceiling Profit is deemed as rebate in accordance with this document. Hence the Customer receives only aggregate of the Profit Amounts from the four Profit Periods, that is:</p> <p>Profit Period (1): RM 986.30 Profit Period (2): RM1,022.19 Profit Period (3): RM1,033.42 Profit Period (4): RM1,033.42 Total Profit Amount = RM4,075.33</p>

SHARIAH PRINCIPLE

68. **Commodity Murabahah via tawarruq arrangement.** The relationship between the Bank and the Customer in respect of the Structured Product-i is governed by the Shariah principles applicable to *Murabahah* sale via *tawarruq* arrangement. *Murabahah* refers to a sale and purchase of an asset with disclosure on the cost of the asset and the profit rate. A *tawarruq* consists of two sale and purchase contracts. The first involves the sale of an asset by a seller to a purchaser on a deferred basis. Subsequently, the purchaser of the first sale will sell the same asset to third party on a cash and spot basis. The mechanics involve:

- (c) if no physical delivery is requested, then immediately after the Purchase Transaction (which includes completion of transfer of ownership and constructive possession of the Commodity represented by certificate(s)), the agent will sell the Commodity to the Bank on deferred payment terms at the following **Sale Price** calculated as follow:
 - (i) the principal amount invested by the Customer; and
 - (ii) the Ceiling Profit Amount (calculated based on the following formula)

Ceiling Profit Amount = Principal Amount x Ceiling Profit Rate x Tenor of the Structured Product-i (in years)

Ceiling Profit Rate = 30% p.a.

For avoidance of doubt, 'Ceiling Profit Amount' is a term included for purposes of explaining the underlying structure of the Structured Product-i to meet Shariah compliant requirements. The Ceiling Profit Amount does not represent actual investment return. Actual investment return which a Customer will receive by subscribing to the Structured Product-i depends entirely from the payoff structure and movement of the reference.

- (d) the Bank will pay periodic investment return (if any) from the Sale Price in such amount and at such frequency as set out in the Confirmation and Indicative Term Sheet in respect of the Structured Product-i when the conditions stated therein have been fulfilled.
- (e) if the circumstances are such that, on maturity or redemption of the Structured Product-i, the Bank has only paid a cumulative amount of investment return which is less than the Ceiling Profit Amount, the Customer agrees to grant a rebate (ibra') to the Bank on the outstanding profit portion of the Sale Price as determined by the Calculation Agent (which determination, shall save for manifest error, be final, conclusive and binding on you).
- (f) the Bank shall pay the outstanding Sale Price on maturity or redemption of the Structured Product-i.
- (g) if the circumstances are such that the redemption amount to be paid is adjusted to take into any costs, charges, fees, accruals, losses, withholdings and expenses in connection with unwinding any hedging arrangement or cancellation of any related transaction which were put in place to provide the investment return on the Structured Product-i, the Customer agrees to grant a rebate (ibra') to the Bank on the Sale Price as determined by the Bank (which determination, shall save for manifest error, be final, conclusive and binding on you).
- (h) if the circumstances are such that the redemption amount to be paid is higher than outstanding Sale Price, the Bank may pay as *Hibah* (reward) to the Customer an

amount equivalent to this difference. On the other hand, if the redemption amount to be paid is less than the outstanding Sale Price, the Customer agrees to grant a rebate to the Bank on an amount equivalent to this difference.

- (i) when the Bank exercises its right to terminate and redeem the Structured Product-i in accordance with the terms herein, the Bank is deemed to have chosen to pay the outstanding Sale Price earlier than the specified deferred payment date.
- (j) when the Customer requests for a premature redemption, the Customer is deemed to have demanded for early payment of the outstanding Sale Price.

- (m) all risk shall pass to the purchaser and the seller shall be freed from any liabilities, responsibilities or obligations relating to the Commodity in any form or manner whatsoever. Any defects or non-delivery or any disputes whatsoever in relation to the Commodity shall not in any way affect or absolve the contracting parties’ obligations or undertakings hereunder.

You agree and will complete an agency appointment to appoint the Agent. The obligations of the Agent in respect of the Commodity *Murabahah* transactions are set out in the agency appointment.

In executing the agency appointment, you acknowledge and agree:

- (a) that Al Rajhi Nominee (Tempatan) Sdn Bhd (Registration Number: 201001026991 (910910-A) (**Agent**) will be your Agent to undertake an independent role and function and to execute specific tasks to facilitate the smooth execution of your subscription in the Structured Product-i and not in any other respect based on the contract of Wakalah bil Ujrah (agency with fee). This indemnity shall continue in spite of termination of the agency.
- (h) the Bank shall monitor and ensure the Agent performs its obligations efficiently and professionally.
